Professional Profile

I'm a Frontend Developer from Perú with B1 English. I have experience building modern web applications and bring a strong foundation in web design and development, using technologies like React, Vue, Angular, Next, TypeScript. Additionally, I have expertise in testing to guarantee seamless user experiences. I also have outstanding interpersonal skills in communication and collaboration in multidisciplinary environments.

Professional Experience

Frontend Developer | PRAXIS | August 2025 - now | Peru

- Migrated a monolithic application to a **microfrontend architecture using React and Module Federation**.
- Built and maintained a **corporate component library** aligned with the company's design.
- Integrated Azure MSAL for secure user authentication, including session handling, logout, and post-login flows.
- Development of **automated tests** ensuring code quality and coverage in compliance with **SonarQube standards**.
- Wrote unit and integration tests using Jasmine and Karma to ensure code quality and reliability.
- Refactored core frontend components, improving code maintainability and reducing technical debt.
- Maintenance and enhancement of **email templates and email-related code** for corporate communications.

Stack: Module Federation, Angular 19, React, Typescript, Jest, Vitest, Karma, Jasmine, JavaScript ES6+, HTML5, CSS3, Azure DevOps.

Frontend Developer | PROMART | April 2022 - April 2024 | Peru

- Developing custom components, like carousels, to enhance user engagement.
- Refactor existing code into high-quality code and Implement automated e2e testing with cypress.
- Maintain project quality contributing to team guidelines.
- Rewrote quotation module from internal CRM from scratch.

Stack: React, Redux, Next, Vue 2, Nuxt, Tailwind, Typescript, Javascript, HTML, CSS, Styled Components, React Hooks, Cypress, Bitbucket.
